Clinical Practice Update on Benign & Malignant Central Airway Obstruction

**DATE**

June 7, 2020

**TIME**

IST: 06:30 pm, MYT: 09:00 pm,  
CEST (France): 03:00 pm

## **Dear Colleagues & Friends,**

Interventional Pulmonology in India, in particular, has dramatically advanced, particularly in the last decade or so. I left for USA for residency and fellowship in Pulmonary Critical Care Medicine in 2009 and by the time I came back 10 years later, I was pleasantly surprised by the cutting edge work being done here, matching and exceeding often to anything I had been exposed to there before.

Hyderabad, one of the fastest growing cities in India has come to establish itself as a leader in Healthcare, Pharma and Information Technology industry. From humble beginnings in 1989, Yashoda Hospitals went on to become the leading private healthcare provider in the city with more than 2000 beds spread across 3 locations. It has been 30 years since the start of Yashoda Hospitals and we have grown ever since. We will soon be opening a new 2 million square feet state-of-the-art facility in “Hi- Tech city” area of the city.

Yashoda Hospital pioneered many advances in different specialties in India, like introducing India's first 3T Intra-operative MRI, treating the highest number of patients globally by RapidArc therapy, performing more than 100 liver transplants per year, performing the first ever combined Heart Lung Transplant in the region, and recently launching the world's first Motorized Spirus Enteroscopy, besides many other innovations.

Pulmonary and Sleep Medicine is an area of particular pride, doing the highest number of Bronchial Thermoplasty cases in the country, launching Navigational Bronchoscopy, Vapor Ablation for COPD, besides doing large volumes of advanced pulmonary interventions like Tracheobronchial Stenting, Cryo, Linear, Radial EBUS, Thoracoscopy & other interventions. Apart from these, Yashoda Hospital has been regularly organizing multiple national and international Intervention Pulmonary conferences as well.

COVID-19 is a once in a lifetime pandemic, affecting every country to a greater or lesser extent. We all are getting used to working with PPEs, social distancing and other measures for the foreseeable future. We congratulate our excellent pulmonary team and all the esteemed faculty, leaders and pioneers in their fields from all over the world for organizing and participating in this one of a kind high-quality webinar and video series. The Interventional Pulmonology Virtual Meet is highly recommended for all the practicing and upcoming pulmonary specialists, and specialists with interest in related fields like thoracic & pediatric, besides other specialties who I am sure will be much enriched by the experience.

Best Regards,

**Dr. Pavan Gorukanti, MD**  
ABIM  
Director, Yashoda Hospitals

## PATRON'S MESSAGE

Technology has brought about a massive and welcome change to the healthcare industry, and as a result of the development of these brilliant innovations, healthcare practitioners can continue to find ways to improvise diagnosis, surgical procedure, and improved patient care.

Department of Interventional Pulmonology at our hospital has world-renowned team of Pulmonologist coupled with the latest technology which provides comprehensive treatment for various pulmonary diseases. We have the best facility in Interventional Pulmonology equipped with Vapor Ablation, Navigation Bronchoscopy, Bronchial Thermoplasty, EBUS, Cryoablation, Tracheobronchial Stenting and more. The role of bronchoscopy in the evaluation and treatment of respiratory disease has evolved dramatically over the last decade and it is an exciting time for interventional pulmonology (IP) and advanced bronchoscopy procedures.

It is with this very aim that Yashoda Hospitals is proud to organize the Interventional Pulmonology Virtual Meet with primary focus on 'Central Airway Obstruction'.

Our aspiration is to make this Interventional Pulmonology Virtual Meet an oasis for exchanging ideas with your peers, acquiring new knowledge in advanced therapeutic and diagnostic modalities, and staying up-to-date on trends and issues shaping our field.

We look forward to seeing you!

Best Regards,

**Dr. G. Surender Rao**  
Managing Director,  
Yashoda Hospitals

## IP VIRTUAL MEET - DIRECTOR

**Dr. Viswesvaran. B**  
Consultant Interventional Pulmonology  
Yashoda Hospital, Malakpet, Hyderabad

## EXPERT FACULTY

**Dr. Hervé Dutau**  
Head of the Thoracic Endoscopy Unit  
Thoracic Oncology, Pleural Diseases, &  
Interventional Pulmonology, North University Hospital,  
Assistance Publique-Hôpitaux de Marseille, France

**Dr. Jamalul Azizi Bin Abdul Rahaman**  
Consultant Pulmonologist  
Department of Pulmonology, Serdang Hospital, Malaysia

**Dr. Rajiv Goyal**  
Chairman of Centre for Respiratory Diseases,  
Jaipur Golden Hospital,  
Senior Visiting Consultant at Rajiv Gandhi Cancer Institute,  
New Delhi

**Dr. Ravindra M Mehta**  
Senior Consultant, Pulmonology,  
Interventional Pulmonology & Critical Care Medicine  
Apollo Speciality Hospitals, Jayanagar, Bangalore

**Dr. V. R. Pattabhi Raman**  
Consultant in Interventional Pulmonology & Sleep Medicine,  
Royal Care Super Speciality Hospital, Coimbatore

**Dr. Prashant N. Chhajed**  
Consultant Chest Physician  
Lilavati & Nanavati Hospital, Mumbai  
Director, Institute of Pulmonology,  
Medical Research & Development, Mumbai

**Dr. Bala Raju Tadikonda**  
Consultant Interventional Pulmonology  
Gayatri Nursing Home, Visakhapatnam

**Dr. V. Nagarjuna Maturu**  
Consultant Interventional Pulmonology  
Yashoda Hospital, Somajiguda, Hyderabad

**Dr. Harikishan Gonuguntla**  
Consultant Interventional Pulmonology  
Yashoda Hospital, Secunderabad, Hyderabad

**Dr. Tinku Joseph**  
Associate Professor & Interventional Pulmonologist,  
Amrita Institute of Medical Sciences, Kochi

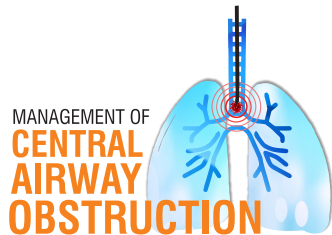

**Dr. Ugandhar Bhattu**  
Consultant Interventional Pulmonology  
Yashoda Hospital, Malakpet, Hyderabad

**Dr. K. Yugaveer Goud**  
Consultant Interventional Pulmonology  
Yashoda Hospital, Malakpet, Hyderabad

**Dr. Viswesvaran. B**  
Consultant Interventional Pulmonology  
Yashoda Hospital, Malakpet, Hyderabad

**DATE: JUNE 7, 2020****PROGRAMME SCHEDULE (IST)**

TIMING	TOPIC	SPEAKER
06:30 pm - 06:35 pm	<b>Introduction</b>	Dr. Pavan Gorukanti
06:35 pm - 06:45 pm	<b>Overview of CAO</b>	Dr. Viswesvaran B
06:45 pm - 07:15 pm	<b>Malignant CAO - Management</b>	Dr. Hervé Dutau (France)
07:15 pm - 07:45 pm	<b>Post Intubation &amp; TB Airway Stenosis</b>	Dr. Jamalul Azizi (Malaysia)
07:45 pm - 09:00 pm	<b>CASE BASED DISCUSSION</b> <b>Moderator:</b> Dr. Ravindra Mehta <b>Expert Panel:</b> <b>Dr. Hervé Dutau, Dr. Jamalul Azizi,</b> Dr. V. R. Pattabiraman, Dr. Rajiv Goyal, Dr. Prashant N. Chhajed	
07:45 pm - 08:00 pm	<b>Case 1: Malignant Airway Obstruction</b> Dr. Harikishan Gonuguntla	
08:00 pm - 08:15 pm	<b>Case 2: Tracheal Stenosis</b> Dr. V. Nagarjuna Maturu	
08:15 pm - 08:30 pm	<b>Case 3: Paediatric Airway Foreign Body</b> Dr. Bala Raju Tadikonda	
08:30 pm - 08:45 pm	<b>Case 4: Adult Airway Foreign Body</b> Dr. Viswesvaran B	
08:45 pm - 09:00 pm	<b>Case 5: Benign Airway Obstruction</b> Dr. Tinku Joseph	
09:00 pm - 09:10 pm	<b>Questions &amp; Answers</b> Dr. Yugaveer Goud, Dr. Ugandhar Bhattu, Dr. Viswesvaran B
