FIBER 2017

AWAITING WABIP ENDORSEMENT

16, 17 December 2017
9 am - 5 pm

Harold Varmus Auditorium
7th Floor, Mazumdar Shaw Medical Center
NH Health City

Dear Doctor,

There has been tremendous progress in the sub-specialty of Interventional Pulmonology in the past few years, ranging from exciting advances in bronchoscopy, both flexible and rigid, as well as in thoracoscopy. We are delighted to invite you to a hands-on workshop on diagnostic and therapeutic bronchoscopy. The two day programme includes two parallel lecture sessions followed by a hands-on session to cater both to pulmonologists-in-training as well as those who are already doing interventions to upgrade their skills to the next level and also to keep abreast of the latest in this exciting field. Renowned National faculty will share their vast knowledge and extensive experience with you.

We have put together the "FIBERS" of interventional pulmonology as in a bronchoscope and we look forward to welcoming you at FIBER 2017
