

**Basics of Interventional Pulmonology Edificio Rosa T, Asunción,
Paraguay July 11-12, 2019**

AGENDA

WABIP PARAGUAY 2019

Day One: Introduction to Flexible Bronchoscopy

- 7:30 - 8:00 Registration
- 8:00 - 8:10 Welcome address, Introduction, learning objectives
and program overview
- 8:10 - 8:30 Patient safety: prebronchoscopy evaluation
- 8:30 - 8:50 Airways Bronchoscopic Inspection
- 8.50 - 9:10 Anatomic relationships
- 9:10 - 9:40 Patient Safety: bronchoscopy in special populations
- 9.40 - 10:00 Preventing and managing airway complications

10:00 - 10:20 COFFE BREAK

- 10:20 - 10:40 BAL and brushing techniques
- 10:40 - 11:00 Transbronchoscopic lung biopsy
- 11:00 - 11:30 cTBNA: How I do it
- 11:30 - 12:00 ROSE by the pulmonologist, it can be do!

12:00- 14:00 LUNCH

14.00- 17:00 Hands- on training: 30 minutes per station

- (A) Airway inspection: step by step method
- (B) BAL technique
- (C) Brushing technique
- (D) Transbronchoscopic biopsy technique
- (E) cTBNA
- (F) ROSE by the pulmonologist

Day Two: Basics of Interventional Pulmonology

- 8:00 - 8:10 Introduction and program overview
- 8:10 - 8:30 Anesthesia for rigid bronchoscopy
- 8:30 - 8:50 Indication and complications of rigid bronchoscopy: an overview
- 8.50 - 9:10 Technique of rigid bronchoscopy
- 9:10 - 9:40 Severe haemoptysis: bronchoscopy role
- 9.40 - 10:00 Foreign body in airways
- 10:00 - 10:20 COFFE BREAK
- 10:20 - 10:40 Benign airway obstruction
- 10:40 - 11:00 Malignant airway obstruction
- 11:00 - 11:20 How to aproach tracheobronchial stents
- 11:20 - 11:40 Balloon dilation and debulking technique
- 11:40 – 12:00 Endobronchial Electrocautery
- 12:00 – 12:20 Cryotherapy for diagnosis and therapeutic purposes
- 12:00- 14:00 LUNCH

14.00- 17:00 Hands- on training: 30 minutes per station

- (A) Tracheal intubation with rigid bronchoscope
- (B) Foreign body extraction
- (C) Electrocautery
- (D) Silicone stent placement
- (E) Cryotherapy
- (F) Practical approach sessions
