**12<sup>th</sup> Bronchoscopy Workshop**  
**SCOPE 2022: Interventional Pulmonology in Infectious Diseases**  
**June 22 – 24, 2022**

**Course Description:**

The 12<sup>th</sup> Bronchoscopy Workshop is a hybrid course that will discuss basic and advanced interventional pulmonology procedures with a special focus on benign and infectious diseases. The first day of the program is a hands on workshop for Pulmonary Fellows-in-Training which will focus on the basic bronchoscopic techniques and an introduction on the proper handling of EBUS. The succeeding two days will be didactic lectures on basic and advanced procedures and this will be capped off by case sharing of interesting cases by the different institutions.

Course Director: Dr. Ronald A. Fajardo
